SUBJECT: 2002: A BRIEF REVIEW

**DATE:** May 2003

2002 proved to be quite busy for the Area Plan Commission, Area Board of Zoning Appeals and especially staff, largely because of increased parcelization activity in the 6 months preceding the effective date of the Ordinance Committee's initiation of Rural Estate zoning. Other sectors of development activity remained fairly constant. The 2000 and 2001 *Annual Reports* showed a decline in the number of development-oriented requests. Because of this pattern, we wondered if it marked the beginning of a trend toward decreased development, which could signal a drop in population in our community. With three years behind us since the initial decline in numbers, it appears that we may simply have reached a plateau instead. Highlights of this year's current, comprehensive and transportation planning accomplishments follow.

The number of requests for major subdivision sketch plan and preliminary plat approvals has held steady over the last three years with 38 in 2000, 39 in 2001 and 40 in 2002. During this same 3-year period, the number of lots showed a two-year spike in 2000 and 2001 then dropped significantly in 2002. A few possible explanations to the drop may include a corresponding increase in the number of minor subdivision and parcelization applications, residential planned developments and the introduction of Rural Estate Subdivision.

Following a two year decline in activity, the number of minor subdivision and parcelization cases increased 28% and 45% respectively in 2002. The number of planned development rezoning requests held steady, with the vast majority of Final Detailed Plan Resolutions heard by the Commission in the residential category: 12 PDRS, 3 PDNR and 1 PDMX. The level of activity in the residential building market would seem to be a measure of continuing economic good health in the Greater

Lafayette area. So far the apparent economic recession of late 2001 seems not to have taken a statistical toll locally in terms of population growth and home building.

Rezoning requests remained at roughly the same level in 2002. The number of cases grew steadily through 2000 but in the last two years has dropped off. One cause for the shift may be the number of large area rezones coming before the Commission in the form of neighborhood and community-wide remapping necessitated by the adoption of *UZO* in 1998. Requests for variances and special exceptions from ABZA, remain relatively low, also typical since the adoption of *UZO* in 1998, which better reflected community standards.

A 10-year summary of how we look, statistically, follows.

APC's Executive Director issues Improvement Location (Building) Permits for Dayton, Battle Ground, and Clarks Hill. Permit activity that nearly doubled in 2001, with 64 permit applications was mirrored this year with 66. The estimated value of construction continues upward, with \$1.9 million in 2000, \$6 million in 2001 and \$5.9 million in 2002. We issued 33 permits to construct single-family homes and 4 for demolition. Remodeling and construction of an addition to the MacAllister facility in Dayton accounted for nearly 25% of this year's construction value.

The following table shows an accounting of APC and ABZA agendas over the past 10 years. Case numbers have trended lower in recent years with 181 total cases in 2002 dipping just below the 183 cases heard a decade ago in 1993. Cases on APC Public

Hearing agendas rose rather sharply through 1997. Since then numbers fell off with a sharp decline in 2002. ABZA agendas fell off in 1999 following the adoption of *UZO*. We saw a slight upward trend in 2000 and 2001 but numbers are down again this year and still well below the 10-year average of 70.

APC's Ordinance Committee met 17 times in 2002. The OC dedicated all or most of 9 meetings to discussion related to the Rural Estate zone. The Committee recommended *UZO* amendments 27 through 31 to the full Commission, the most notable of which was the long awaited Rural Estate zone, in conjunction with revisions to *USO* rules changing parcelization, and establishing the Rural Estate Subdivision. The OC also worked on and passed on a revised zoning map for the Columbian Park Neighborhood.

Of special note in 2002 was APC's unanimous vote that INDOT expand the Metropolitan Planning Area boundary to be coterminous with that of Tippecanoe County, and its support for Vision 2020's nomination of North and South River Roads and Division Road as a Scenic Byway between I-65 and Ross Hills Road. The Commission also unanimously established new fee schedules to be appended to the Bylaws of both APC and ABZA.

The remainder of this volume details, on a case-by-case basis, the 2002 activities of the Area Plan Commission, the Area Board of Zoning Appeals, and of us, the Staff that serves both bodies. We hope this will again prove useful to you as a book of facts and as a research tool.

#### THE ANNUAL REPORT, 2002

For this edition, Assistant Director Margy Deverall finished the work started by former Assistant Director Bernie Gulker. Bernie had prepared the Annual Reports since 1985.
